®
Foodcourt on an App

ABOUT THE BRAND

EatSure: India's digital food court platform, Owned by **Rebel Foods**, headquartered in **Mumbai**. It Allows customers to order from **multiple restaurants in one order**. It has it's Annual revenue: **₹1,490 crore (around $179 million) as of March 31, 2024.**

KEY FEATURES
- Transparency, quality and hygiene ensured
- No artificial colors or flavors used in recepies

REBEL FOODS
- Founded in 2011
- Initially operated with single brand **Faasos** now Expanded to **multiple brands (Behrouz Biryani, Oven Story Pizza, etc.)**

OPERATIONS
- 450+ cloud kitchens across 75 Indian cities
- International presence in Middle East, North Africa, Indonesia, and UK

BUSINESS MODEL
- Leverages cloud kitchens to optimize operations.
- Offers customers a wide selection of cuisines while maintaining quality and safety standards.

TECHNOLOGY
- Utilizes deep linking and personalized web-to-app banners
- Enhances user experience and drives app engagement

WHO IS IT FOR, WHO IS EXCITED AND WHO IS NOT?

- **Excited:**
  - **Urban Professionals & Busy Individuals:** Convenience-seeking consumers, such as young professionals or families, who want healthy meals delivered quickly and with minimal effort, will find EatSure appealing.
  - **Health-conscious Consumers:** People who prioritize nutrition and are mindful of what they eat (e.g., fitness enthusiasts, vegans, vegetarians, or those with specific dietary needs like gluten-free or low-carb) will find EatSure appealing.
  - **Eco-conscious Consumers:** EatSure adopts eco-friendly practices like sustainable sourcing and packaging, or carbon-neutral delivery methods.
  - **Tech-Savvy Millennials & Gen Z:** Younger generations, particularly those who are highly active on social media.

- **Not As Excited:**
  - **Price-sensitive Consumers:** If EatSure focuses on high-quality, sustainable ingredients.
  - **Traditional Consumers:** People who are less concerned about sustainability or new food trends may find it difficult to engage with EatSure if they prefer traditional take-out or are more familiar with established food delivery platforms.
  - **Rural Communities:** If EatSure focuses heavily on urban markets or lacks widespread delivery options, people in less populated areas may not be able to enjoy the service.

Eat Sure
Foodcourt on an App

STRENGTHS

Multi-Restaurant Ordering – Order from multiple restaurants in one go.
Cloud Kitchen Efficiency – Reduces operational costs and improves scalability.
Strong Brand Portfolio – Features popular brands like Faasos, Behrouz Biryani, and Oven Story Pizza.
Quality and Hygiene Focus – Ensures strict quality checks and transparency in ingredients.
Technology-Driven Operations – Utilizes AI-driven personalization and marketing analytics for enhanced user experience.

S W

WEAKNESSES

Limited Market Reach – Not as widely recognized as competitors like Swiggy and Zomato.
Higher Prices – EatSure focus on quality and premium brands may be too expensive for some customers.
Dependence on Rebel Foods Brands – Limited diversity in third-party restaurant offerings.

OPPORTUNITIES

International Expansion – Entered UAE and UK markets, with potential for further global growth.
Partnerships with Third- Collaborating with independent restaurants to increase variety and appeal.
Subscription and Loyalty Programs – Implementing reward systems to boost customer retention.

O T

THREATS

Intense Competition – Faces competition from Swiggy, Zomato, and cloud kitchen startups.
Regulatory Challenges – Food safety regulations and taxation policies may impact expansion.
Economic Downturn – Slowdown in consumer spending may affect revenue.
Customer Preference Shift – Trends in home-cooked meals and healthy eating may impact demand.

Eat Sure
Foodcourt on an App

5CS FRAMEWORK

COMPANY

STRENGTHS:

1. Unique ordering feature
2. Quality assurance
3. Cloud kitchen network
4. International presence
5. Premium recognition

CHALLENGES:

1. Premium pricing
2. Limited options
3. Low brand awareness

COLLABORATORS

- Third-party restaurants for expanded options.

- Corporate tie-ups for employee meal plans.

- Fitness & wellness brands for health-focused offerings.

- Financial & e-commerce partners for exclusive discounts.

CUSTOMER

PRIMARY SEGMENTS:

1. Young Professionals
2. Health-Conscious Youth

SECONDARY SEGMENTS:

1. Families & Social Diners
2. Price-Sensitive Consumers

COMPETITORS

Zomato
Swiggy, Instamart
Food panda
Uber eats

CLIMATE

Food wastemanagment policy.
Plastic ban policy
Carbon foot prints

PROBLEMS WITH EATSURE

- LESS RESTURANTS TIEUPS
- UNSORTED INTERFACE
- UNIDIRECTIONAL PROMOTION
- LESS AWARENESS

Eat Sure

CONDUCTING STP EXERCISE

SEGMENTATION

Understanding customer behavior and unique segment needs.

TARGETING

Targeting how a company chooses whose needs they want to service

POSITIONING

Positioning is how they get the customers to recognize why the benefits of their offerings matter

Eat Sure
Foodcourt on an App

METHODS OF SEGMENTATION

DEMOGRAPHIC SEGMENTATION

GEOGRAPHIC SEGMENTATION

BEHAVIOURAL SEGMENTATION

PSYCHOGRAPHIC SEGMENTATION

DEMOGRAPHICS

Age

🎯 **20-35 years** (Tech-savvy, convenience-driven, frequent online orders)
🎯 **35-50 years** (Premium food seekers)

Family Size

🍽️ **Individuals –** Single-serving meals
👨‍👩‍👧‍👦 **Families –** Combo meals & bulk orders

Family Life Cycle

🎓 **Young Singles –** College students & professionals (Frequent orders)
💑 **Young Couples –** Variety & Convenience
👨‍👩‍👧‍👦 **Families with Children –** Large meal combos, kid-friendly meals
🧓 **Older Adults –** Quality-controlled, hygienic food

Gender Preferences

⚖️ **Gender-neutral appeal**

Income Group

💳 **Middle to upper-income** (Willing to pay for quality & convenience)
⚖️ **Budget-conscious consumers** – May find it slightly premium

Religion & Dietary Preferences

✅ Vegetarian
✅ Jain-friendly
✅ Halal-certified
✅ Non-beef / Non-pork menus

GEOGRAPHICS

Region

📌 **Urban & Metropolitan Focus –** High food delivery demand
📌 **Expanding Internationally –** UAE 🇦🇪 & UK 🇬🇧

Cities

🏆 **Tier 1 Cities:** Mumbai, Delhi, Bangalore, Hyderabad
📈 **Tier 2 Growth:** Pune, Ahmedabad, Chandigarh
🆕 **Tier 3 Expansion:** Recently launched

Climate-Based Demand

❄️ **Winter:** Soups, warm meals
☀️ **Summer:** Cold beverages, salads

Global Reach & Future Expansion

🇮🇳 Originated in India
🌍 Expanded to UAE & UK
➡️ Future: Southeast Asia & high-demand regions

BEHAVIOURAL

Convenience Seekers
People who order food due to busy schedules

Health-Conscious Consumers
Individuals who prioritize hygiene, nutrition, and dietary needs

Food Explorers
People who enjoy trying new cuisines and premium food experiences

Deal Seekers
Customers who prioritize discounts, BOGO deals, and loyalty benefits

PSYCHOGRAPHICS

Premium & Quality-Conscious Consumers
Willing to pay more for guaranteed quality and hygiene

Tech-Savvy Millennials & Gen Z
Digitally engaged users who prefer app-based ordering

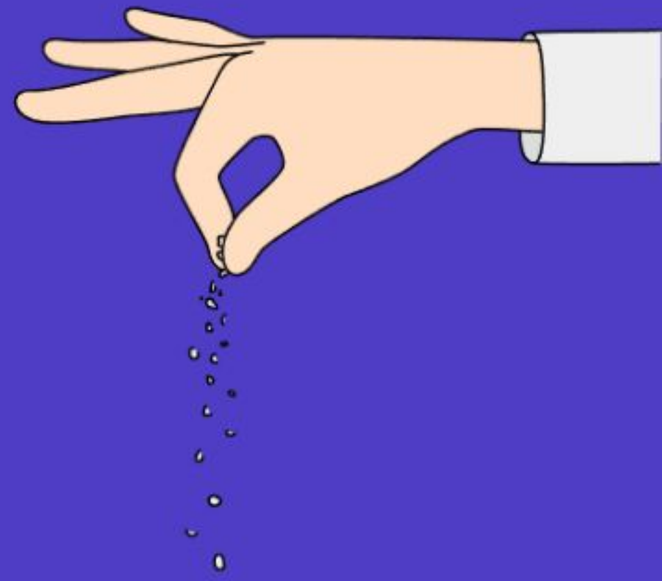

Status
Willing to pay more for guaranteed quality and hygiene

Ethical & Sustainability
Focused Consumers – Prefer brands with transparent food sourcing and clean-label ingredients

TARGETING

(SELECTING THE MOST PROFITABLE SEGMENTS)

Primary Target Audience (Core Customers)

Young Working Professionals (22-35 years, urban, mid-to-high income)

- Needs: Quick, convenient, high-quality food during work hours or late nights

Health-Conscious Millennials & Gen Z (18-35 years, metro cities, upper-middle income)

- Needs: Clean-label food, vegan/keto/Jain-friendly options, high-protein meals

Secondary Target Audience (Emerging Growth Segments)

Families & Social Diners (25-45 years, families and groups in urban cities)

- Needs: Variety in ordering, meals for kids and family gatherings

Premium & Status-Driven Consumers (30-40 years, high-income segment)

- Needs: Exclusive, gourmet, and high-end food experiences

POSITIONING

A PREMIUM, MULTI-BRAND CLOUD KITCHEN PLATFORM OFFERING HYGIENIC AND HIGH-QUALITY FOOD.

Challenges with Current Positioning:

- Limited mass appeal due to premium pricing
- Not strongly differentiated from Zomato/Swiggy beyond multi-brand ordering
- Needs stronger emotional and lifestyle-based connection with consumers

EXISTING MARKETING MIX'S 4P'S

1. Product (What EatSure Offers)

- **Multi-Restaurant Ordering**
- **Diverse Cuisine Options**
- **Hygiene & Quality Assurance**
- **Premium & Affordable Meals**
- **Combo Meals & Family Packs**

2. Price (How EatSure Prices Its Offerings)

- **Competitive Pricing –** Balanced between premium quality and affordability.
- **Value-for-Money Deals –** Offers combos, discounts, and buy-one-get-one (BOGO) deals.
- **Subscription & Loyalty Programs –** Potential for future premium memberships.
- **Festival & Seasonal Discounts –** Special offers during Diwali, Eid, Christmas, and New Year.

3. Place (Where & How EatSure Sells)

- **Mobile App & Website**
- **Cloud Kitchens**
- **Presence in Tier 1 & Tier 2 Cities, Tier-3**
- **International Expansion –** Growing in the UAE, UK, and other global markets.
- **Hyperlocal Delivery –** Uses a strong delivery network to ensure fast and fresh food delivery.

4. Promotion (How EatSure Markets Its Brand)

- **Digital & Social Media Marketing**
- **Influencer & Celebrity Collaborations –** Works with food bloggers and social media influencers.
- **Referral & Discount Programs –** Encourages word-of-mouth marketing through referrals and promo codes.
- **App-Based Push Notifications & Email Marketing –** Personalized offers and reminders.
- **Festive & Seasonal Campaigns –** Themed offers during special occasions and events.

NEW MARKETING MIX'S 4P'S (ADITIONAL)

Eat Sure
Foodcourt on an App

AI POWERED-INTERACTIVE THALI IMPLEMENTATION

EXISTING INTERFACE

1. Cluttered Homepage

- Too many banners and promotions competing for attention, making it visually overwhelming.
- Important features like search or filters are not emphasized enough.

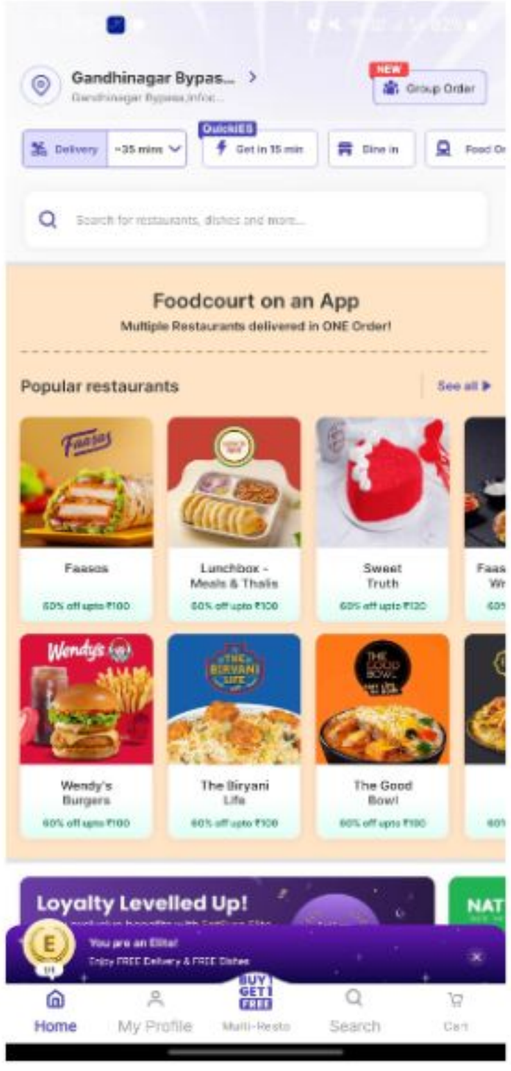

2. Confusing Navigation

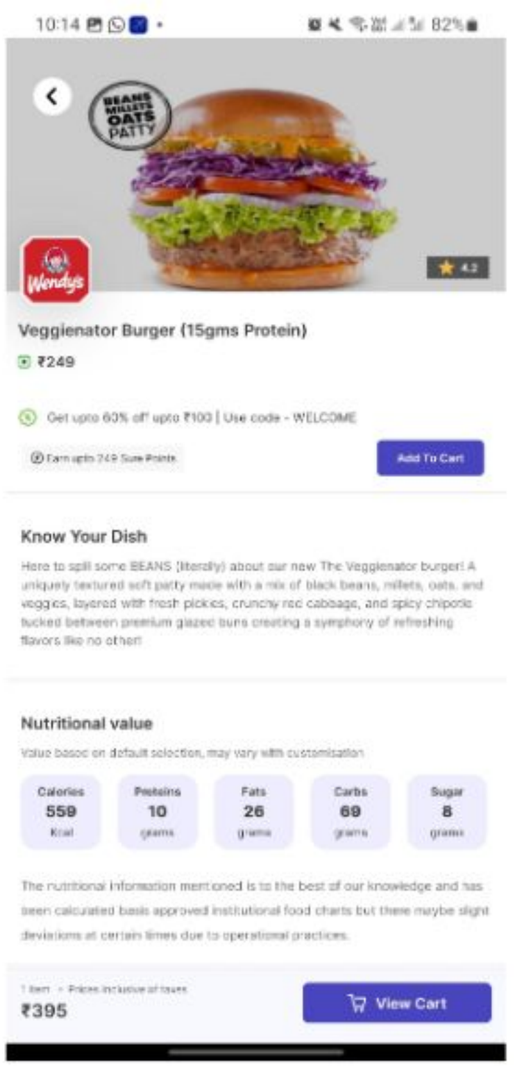

- The menu categories (like cuisines or brands) are sometimes hidden under unnecessary scrolling.
- The toggle between different restaurant brands can be unintuitive.

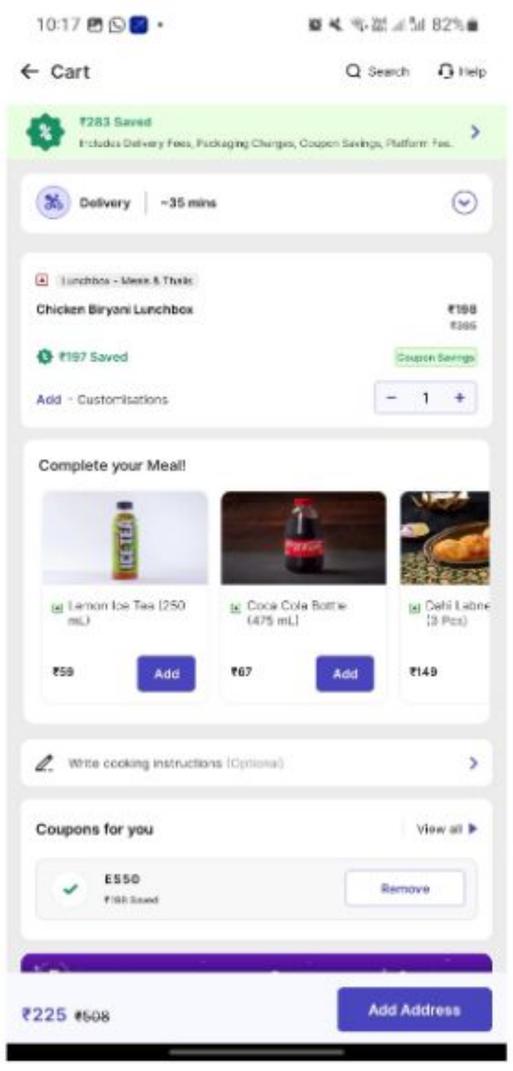

3. Poor Information Hierarchy

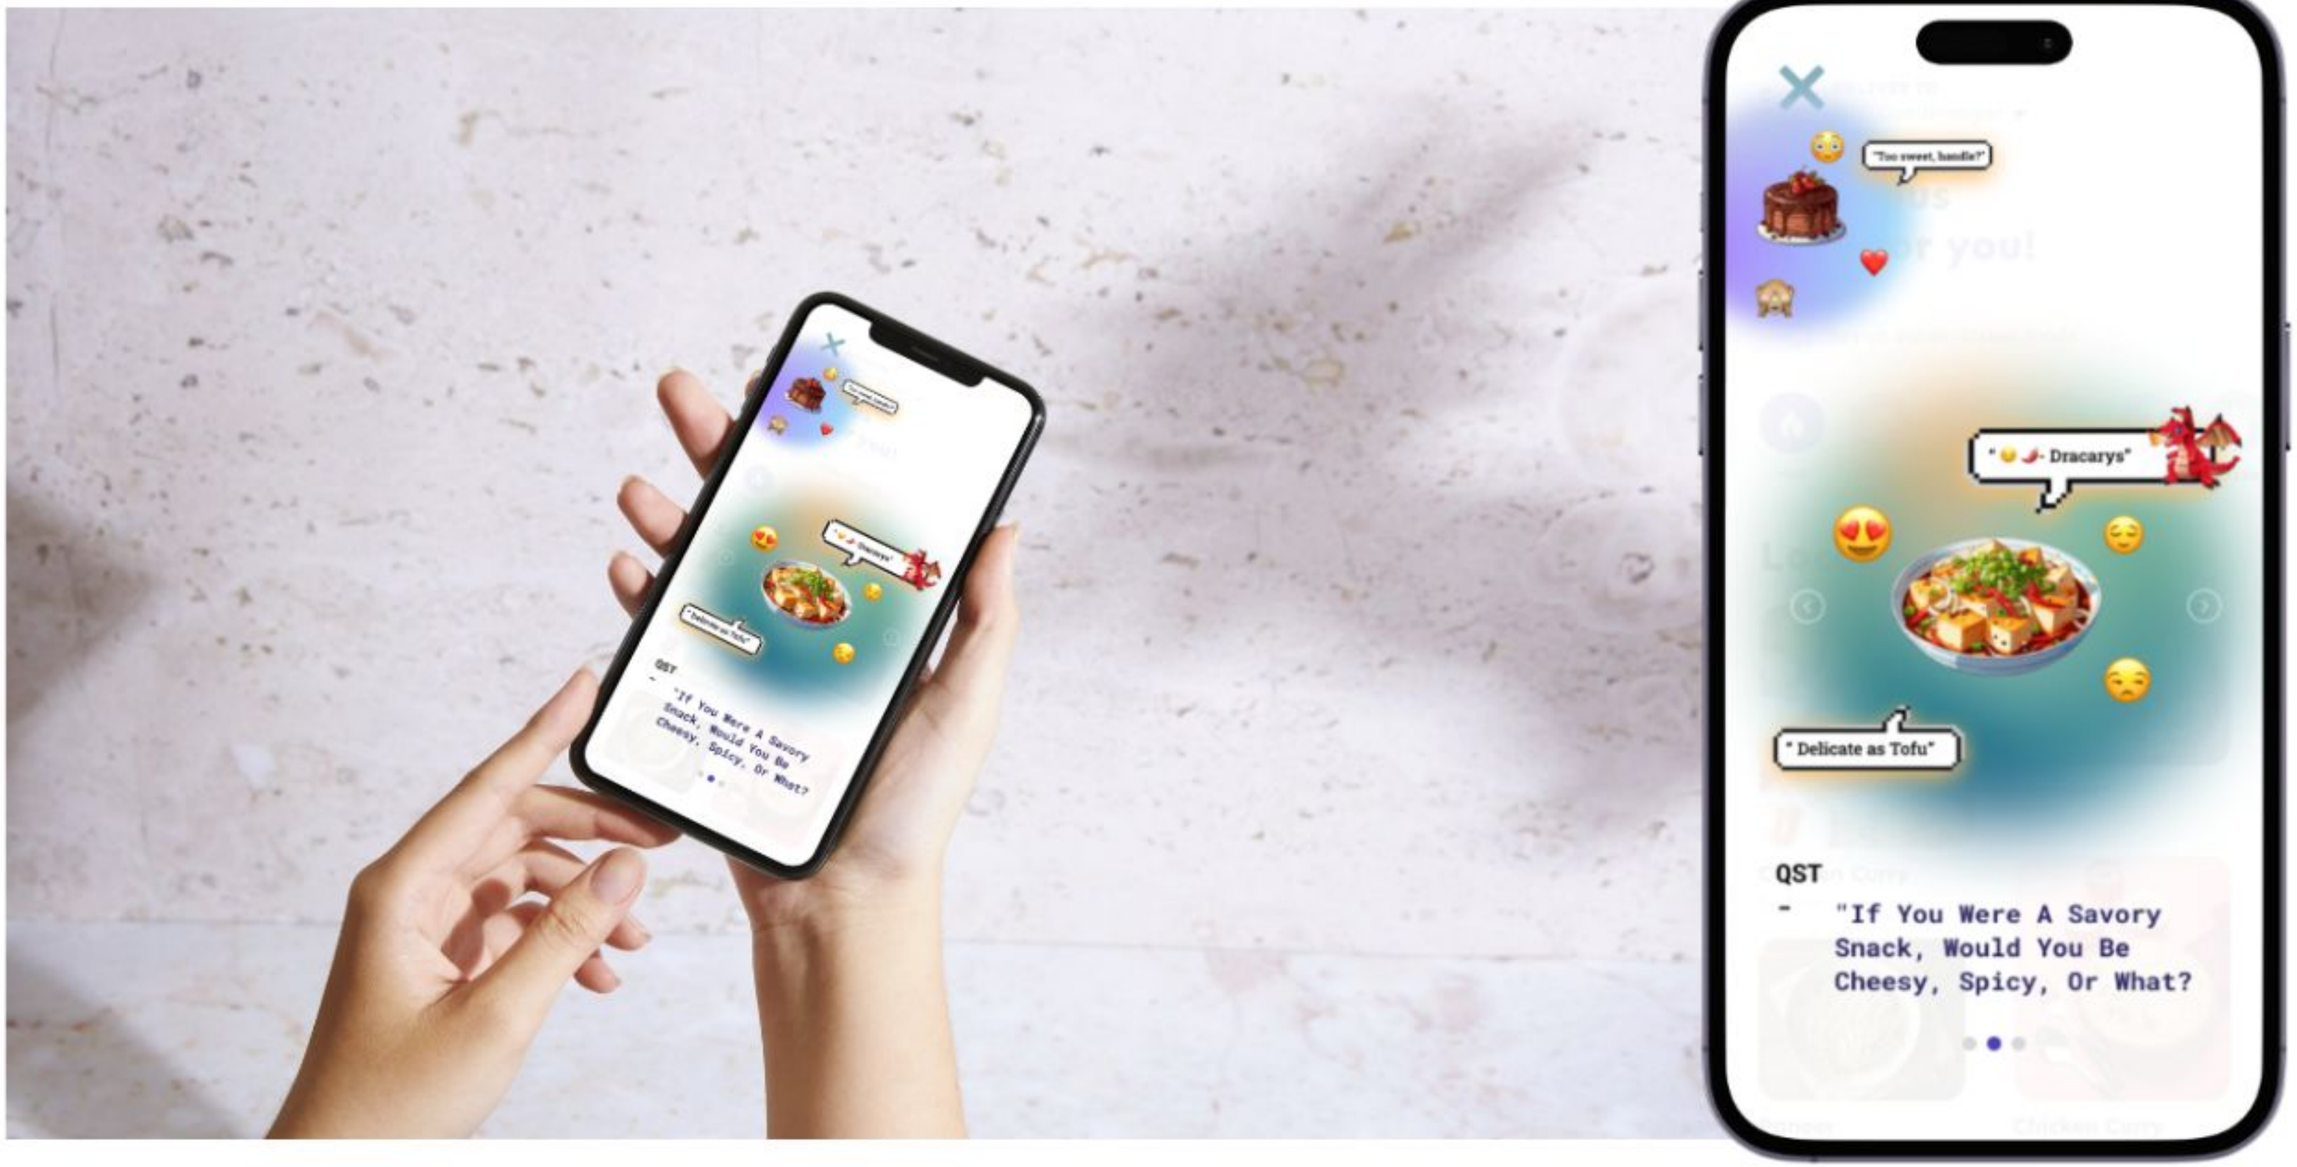

4. Lack of Dark Mode or Accessibility Features

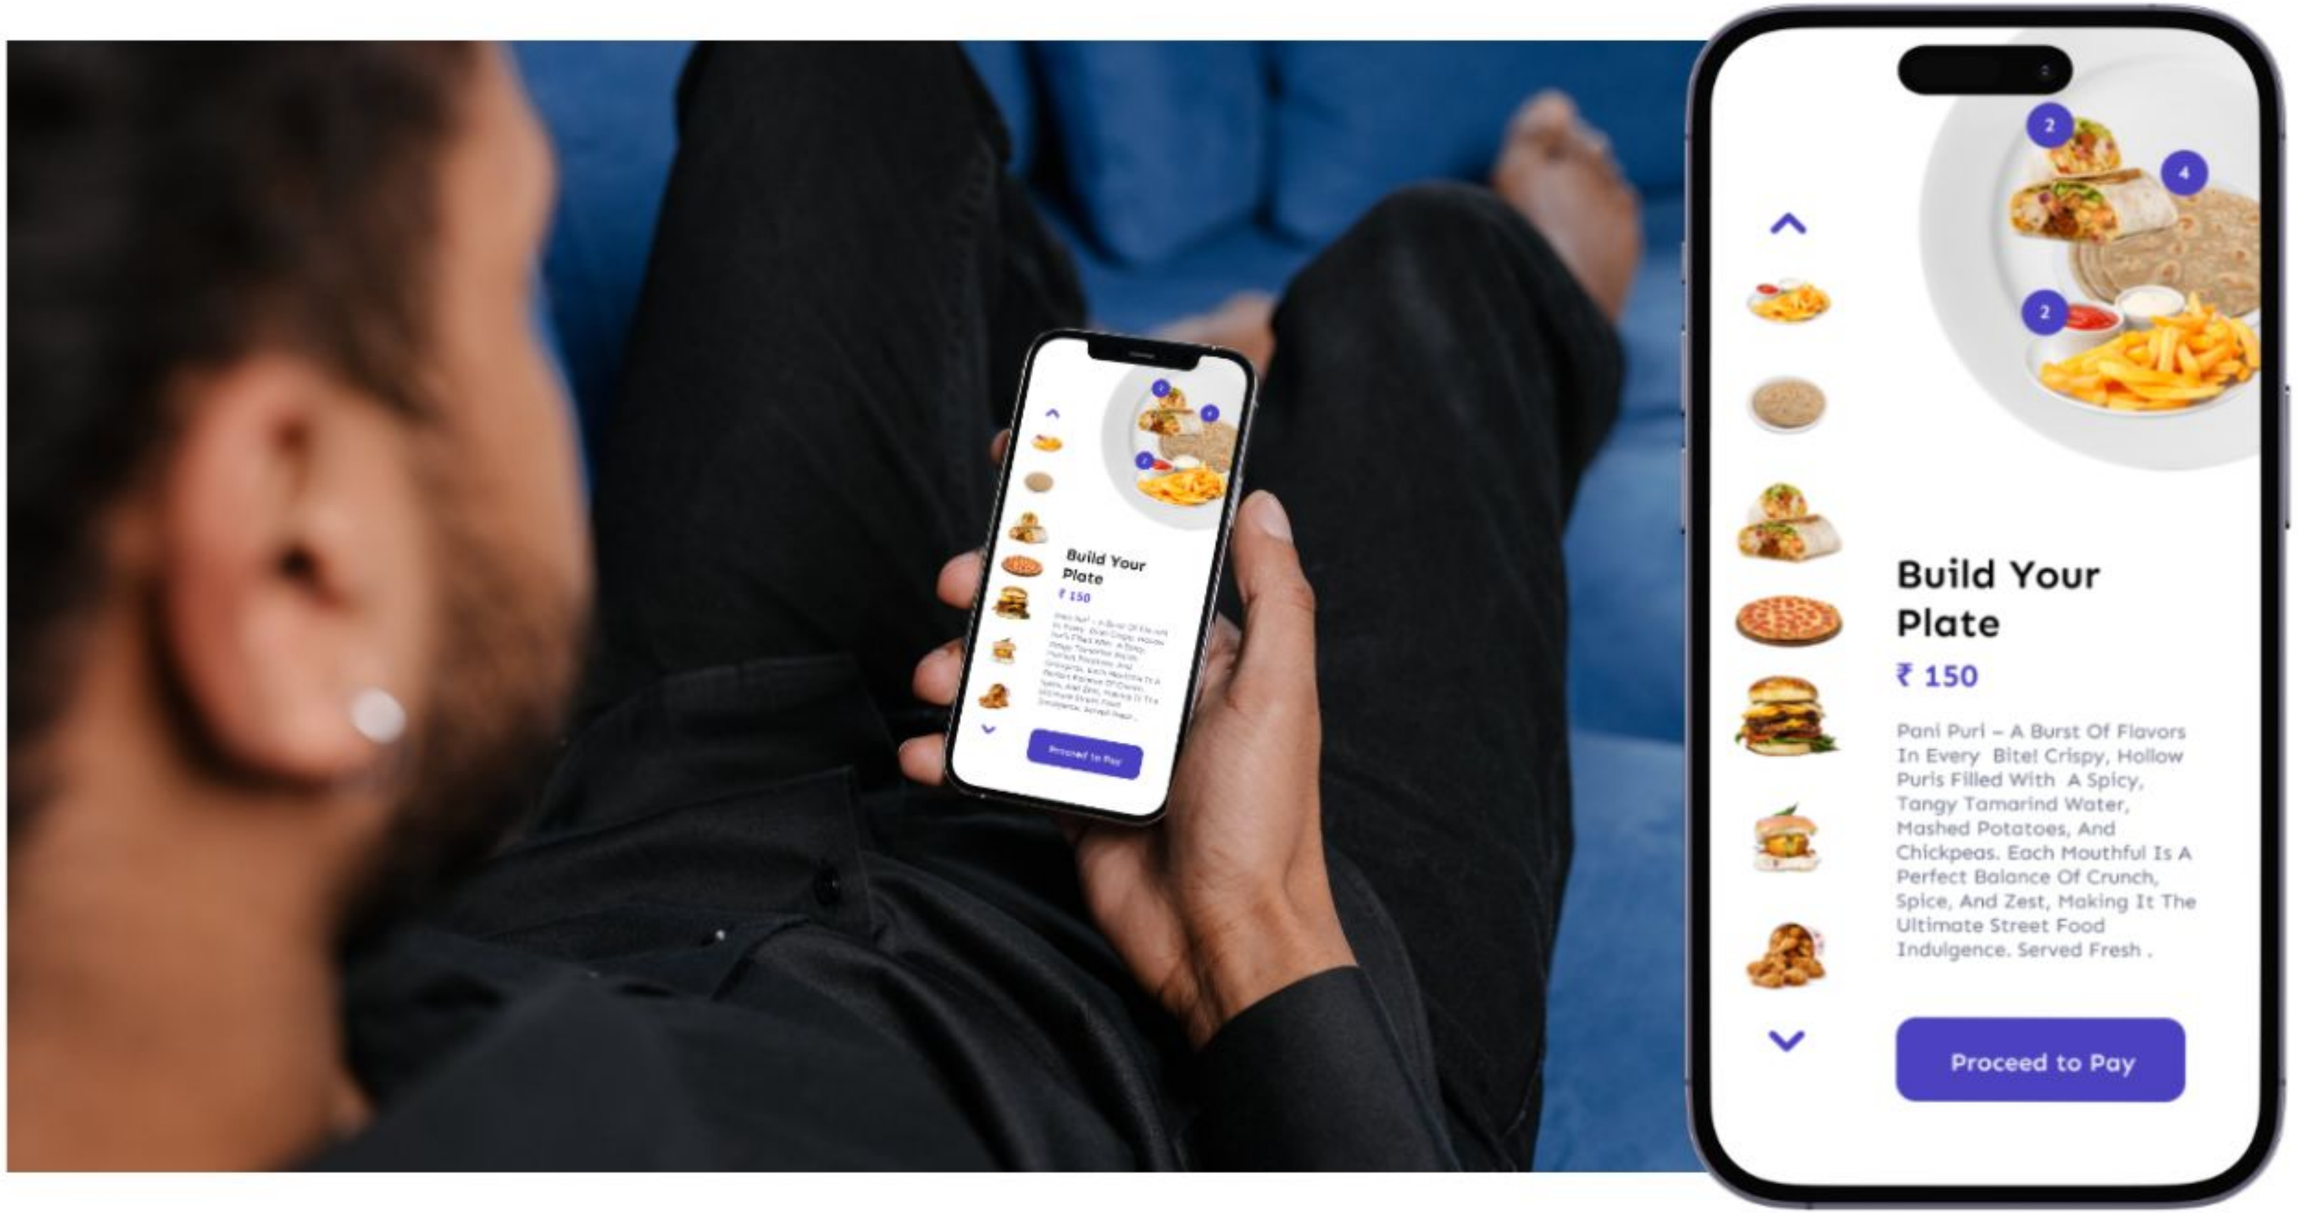

- No clear accessibility options for visually impaired users.
- Poor contrast in certain sections makes reading difficult in low-light conditions.

"Too sweet, handle?"
" Dracarys"
" Delicate as Tofu"
QST
- "If You Were A Savory Snack, Would You Be Cheesy, Spicy, Or What?

WHY HAVE WE CHOSEN THIS ?

Street Vendor Integration

- Expands EatSure's food **variety with popular local dishes.**
- Supports small vendors while ensuring hygiene standards.
- Attracts cost-conscious **customers looking for affordable meals.**
- Strengthens EatSure's **presence in untapped markets.**

Student Discount Program

- **Encourages frequent purchases** from budget-conscious students.
- Builds brand loyalty and **word-of-mouth marketing**.
- Increases user acquisition through referrals.
- Strengthens **presence on campuses** and among young consumers.

AI-Powered Virtual Thali

- Simplifies decision-making for confused customers.
- **Enhances user engagement** with an interactive experience.
- Boosts retention with fun, gamified elements.

HOW ARE WE IMPLEMENTING ?

Street Vendor Integration

- Identify and onboard vendors through local partnerships.
- Conduct hygiene and quality check.
- Develop a vendor-friendly app/dashboard for order management.
- Integrate delivery support and optimize logistics routes.
- Run promotional campaigns to highlight street vendors.

Student Discount Program

- Integrate student ID verification at checkout.
- Launch an in-app referral system for easy sharing and tracking.
- Roll out targeted marketing campaigns for student discounts promotion.

AI-Powered Virtual Thali

- Develop an AI-driven quiz to suggest meal options.
- Design an intuitive UI for the thali customization feature.
- Integrate real-time nutritional suggestions.
- Implement gamification elements.
